

2BE-Kilted

How to measure your kilt size & length

Camo 2BE-Kilted kilt

Note: All our sizes are in inch measurements. Do not use your pant size when placing your order. If you find yourself in-between a measurement, order the larger size.

Step 1.

Grab your flexible measuring tape.

Step 2.

Keeping your feet together. On average, you want to measure around your hips. Hold the tape not too tight or to lose, just snug around the hips.

Step 3.

To measure your Length. And you may want to ask for help, or not, up to you. Get on your knees and keep your length as if you were standing straight. Use your measuring tape or yard stick, and from your hip to the floor take that measurement as your length.

Step 4.

If you need and or want to (TWEAK) the kilt measurements for whatever the reason. Example, if you measure the kilt from your waist, the length needs to reflect that as well.

Height	Length
65" up to 70"	21.5"
70" up to 74"	23"
74" up to 78"	24.5"
